

Hello DT Alums!

I am looking for a licensed and insured acupuncturist who might be interested in working 2 Mondays a month at a retirement community in south Asheville. I currently work 2 Mondays a month but the schedule is overflowing and I would like to make acupuncture available every Monday.

The patients are a lot of fun and the work is very fulfilling but I just don't have time in my schedule to add any more days. I am looking for someone to weave in to the current schedule and eventually take over fully. It's a great gig, especially for someone just starting out and it's something that could be expanded in the future if you wanted to.

If you are interested or would like more information send an email
to: amy@carbonfeather.co

Thank You,
Amy Peek, L.Ac.
