Fall Break	October 8-12		
Semester End	December 15		

The College reserves the right to make changes to the college calendar and academic calendar as necessary.

Master's/Dual: New Student Orientation is mandatory for all new master's/dually enrolled students. Semester Orientation is held the Friday prior to the first day of classes each semester. Attendance at these all-school meetings is mandatory. See course syllabi for specific online and in-person class dates, including schedule adjustments for the doctoral exclusive class week. Master's summer classes are held following years two and three. Master's Clinical Internship sessions run 42-46 weeks per year and interns have shorter breaks between semesters. Doctoral courses for dually enrolled students begin in semester 3. See *more below*.

Doctoral: Online classes typically begin before master's classes. Approximately 6 weeks earlier in summer/fall and 3 weeks earlier in the spring semester. Class start dates are announced prior to each semester. The doctoral program requires in-person attendance at a 3-5 day class session each semester - virtual attendance is not permitted for these sessions.

CCHM: The program operates on a separate calendar and class schedule. Refer to the website for details.
